## top 10 apps special education learners

### aba apps from kindergarten.com

Receptive Identification apps designed to teach foundational language concepts to early learners. (free/\$0.99)

### autismate

Sentence builder, Scene-Based AAC, video modeling, visual schedules – This app is expensive, but it delivers a ton of resources for children on the Autism Spectrum. (iPad - \$149.99)

### my first aac

An affordable augmentative & alternative communication application that is specifically designed for toddlers & preschoolers with delayed speech or severe speech disorders. (iPad - \$24.99)

### see.touch.learn pro

A picture card learning system that will replace all your physical flash cards. Ability to customize makes this a great app. (iPad – free/\$34.99)

### vistimerfree

Just what it says. Easily adaptable visual timer – can be used for any age, includes visual & audio prompts. (free)

### articulation station

Full featured articulation application to help children of all ages learn to speak & pronounce their sounds more clearly. In-app purchases. (free/\$49.99)

### story creator

We use this app to create personalized social stories for individual students & groups/classrooms. Really user-friendly! Ability to share your social stories with other teachers/parents who have the app. (free/\$1.99)

### hidden curriculum for kids

These real-life based entries spur conversations about the countless “unwritten social rules” that children/teens/adults on the Autism Spectrum encounter every day. (iPod - \$1.99)

### asl dictionary

Does exactly what it says it does. Great videos that model ASL signs. (iPod – \$2.99/iPad - \$6.99)

### conversationbuilder teen

Designed to help elementary aged children learn how to have multi-exchange conversations with their peers in a variety of social settings. (iPad - \$19.99)
